Emily Bear Format: Audio CD

Audio CD, April 7, 2013

Provided by Amazon Digital Services, Inc.

Price \$12.99

Concord Record and Quincy Jones present the debut of pianist/composer Emily Bear. Diversity, produced by Quincy Jones, features 13 songs written by Bear and performed with a Jazz Trio.

"I am at once astounded and inspired by the enormous talent that Emily embodies. With the ability to seamlessly move from Classical to Jazz and Be-bop, she shows as much musical prowess as pianists/composers twice her age, and I am thrilled to be working with her. She is the complete 360-degree package, and there are no limits to the musical heights that she can reach." states Jones.

Marc Morial, President and CEO, National Urban League

"Any serious attempt to close the racial wealth gap and build Black American wealth, must better leverage the trillion dollars of buying power controlled by the Black American consumer. In Our Black Year, Maggie Anderson offers a clear, cogent and intensely personal view of one family's journey to do just this. An important book that provides a path for others to follow."
